Figure 1

2/19

Figure 2

A) Synthesis occurs on the X-axis

B) Separation occurs on the Y-axis

C) Screening occurs via transferral or diffusion through the Z-axis, into or on another plane

Figure 3

A) Synthesis on X-axis

B) Separation on Y-axis

C) Further synthesis on X-axis,
followed by further separation on Y-axis

D) Screening occurs via transferral or
diffusion through the Z-axis, into or on
another plane
